

149 Places to See

About this map
 This idea behind this map was conceived on a Saturday in the beginning of July in 2009 during a lunch at the Lebanese fast-food outlet Zaatar W Zeit in Abu Dhabi.

I had been spending nearly an hour trying to pump former socialism-salesman Mike Chermshynsky for information on places he had visited and which, based on his knowledge of me, he thought I would like too.

Looking at Mike's list of suggestions, I thought that this would be an interesting experiment to conduct on a larger group of people also - and sent a text message to fifty good and well-travelled friends and colleagues where I asked them to send me, by SMS and within 24 hours, a list of seven destinations they had visited and which they thought I would like.

Second edition (2010)
 The second edition of "Places to See" contains 149 places worthy of a visit. The edition resulted from a revision conducted in late November 2010.
